## **DETAILED ACTION**

## Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

## Allowable Subject Matter

- 2. Claims 1-14 are allowed over the prior art of record.
- 3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to disclose or make obvious a method of detecting the end point having the steps of calculating said initial matrix and said processing matrix to get an end point matrix, and said initial matrix times said end point matrix being said processing matrix; and detecting said end point of said plasma process by comparing said end point matrix with a reference end point matrix, and in combination with the other recited limitations of claim 1. Claims 2-8 are allowed by the virtue of dependency on the allowed claim 1.

Regarding claim 9, the prior art fails to disclose or make obvious a method for detecting the end point having the steps of getting a reference end point matrix by calculating said first matrix and said second matrix, and said first matrix times said reference end point matrix being said second matrix; calculating said initial matrix and said process matrix to get an end point matrix, and said initial matrix times said end point matrix being said process matrix; and comparing said end point matrix with said reference end point matrix to detect said end point of said plasma process, and in combination with the other recited limitations of claim 9. Claims 10-14 are allowed by the virtue of dependency on the allowed claim 9.
